Program Overview:

The Economics for Leaders represents a unique experience in economics education that brings together high school juniors and seniors selected for their leadership potential who want to study economics. The EFL one-week program encompasses 30 hours of instruction plus small group sessions and workshops. The combination of classroom instruction, question and answer sessions, small group discussion, and workshops presents information in a rich and varied format, encouraging active student participation. Economics professors selected nationwide for their expertise and teaching effectiveness lead classes using case studies to illustrate economics principles and leadership concepts.

EFL is designed to create a diverse learning environment for the students. In addition to study sessions, the program also includes leadership components which emphasize self-exploration through teamwork exercises. These activities provide a physical outlet and an enjoyable diversion from the economics lessons.

Student Goals:

1. Become articulate on the basic forces moving and coordinating the economy.
2. Learn about the economic aspects of select current national and international issues.
3. Gain leadership skills.
4. Foster a commitment to continued learning about economics and leadership.
